ERROR DESCRIPTION:

NOTES:

- Must send the material to repair to our offices, **with postage prepaid.**
- It's recommended to protect the equipment in the package in the best safe and protected way, to avoid transport damages and / or other issues.
- The price of this reparation process depends on the state of the equipment, **it could happen that the problem is different from the one that seems, and it requires from a different repair service.** *Once the material to repair is received, we will check the error described in the form, providing an estimated date of the repair, at the same time we'll notify to the customer any defect or anomaly not described in the form that can suppose an additional cost in the budget accepted. Repair time ranges take between 3 days until 3 weeks, depending on the issue.*
- **Our team will contact you as soon as the equipment is received and the repair job it's done.**
- **The return shipping costs are not included,** must be paid in cash to the courier on delivery.
